

APRE Engineering Awards 2017

The Association of Public Radio Engineers is seeking nominations for the next annual "Engineering Achievement Award" to be presented at the Public Radio Engineering Conference held prior to the NAB convention in April.

The honor is to be awarded to a single individual for "outstanding contributions" to the art and/or science of radio engineering that has made a "significant impact on, or improvement in", the state of the public radio industry.

Know someone who has made this "outstanding contribution"? Please take a few minutes to say "thanks" for their work by nominating them for this year's award?

Download the 2017 Engineering Award Submission Form from the APRE web site (www.apre.us) and send it to awards@apre.us by March 15, 2017. Full details of the submission process are included on the form.

Last year's APRE Engineering Awards recipient was Ralph Hogan, Past Founding President of APRE.

Other past honorees include:

Ralph Woods, retired NPR

Bud Aiello of NPR and

Gray Frierson Haertig.

Michael LeClair, CE for WBUR(FM)
